

- One (1) lavalier microphone (cordless, remote)
- Extra-large screen – as large as the room can hold
- Rear or top projection preferred
- Screen angled in the room will also work
- LCD projector for *Multi-Media presentation*
- 1600 Lumens Minimum
- Riser lit by wash (or spot) to ensure no bleeding on to the screen
- Riser for audiences of 100 or more
- 2 to 3 foot riser is best
- Small table, 6 feet in front of stage, for Cary's laptop
- Table needs access to electrical power, the LCD projector and the sound system
- If a lectern/podium is being used by the MC, please ensure it is stage left or right, as Cary moves across most of the stage
- Meet with AV technician(s) for a 'rehearsal' of laptop setup

PLEASE NOTE:

- **Cary's presentation is multi-media, including images, video and visual systems, all contained within a Mac program called Keynote**
- **It lives on Cary's laptop which needs to be plugged into the LCD projector, your power and sound system**
- **Cary brings the Mac converter required for your LCD**
- **Cary's laptop will act as a monitor if none is provided**
- **Cary brings his own wireless remote and prefers to do all of his own cueing (there are over 100 clicks)**

Production / AV Company – PLEASE NOTE

- Cary's multi-media has a resolution of '1024 X 768' – please ensure your projector is compatible
- *If IMAG is being used, please contact Cary's Event Coordinator in advance to discuss cueing – events@cmispeakers.com or toll free at 877-307-7403, x 12*

Seating Preferences

- 1st choice - theatre or classroom
- 2nd choice - "U" or "V" shape
- 3rd choice - round table

NOTE: Video or Audio Taping Cary Mullen's Presentations

Cary Mullen is happy to have his presentation video or audio taped for internal and non-commercial use. Written permission must be acquired from Cary's management team prior to the event. Copyright and intellectual property rights of the recorded session belong solely to Cary Mullen.

In lieu of payment for the use of his copyrighted material, Cary requires a MiniDV or DV-Cam of the video recording and/or a DAT of the audio recording.
